**ISSUE 50:-** we finally made it !!! This issue is an important milestone for us as we reflect on the past ten years and ponder on the next steps from here. World wide, magazines have been going into extinction due to financial downturns and the cost of production. The advancement of social media has rapidly changed the way we consume information but we're still here!

This issue couldn't have come at a better time than Trinidad carnival . It's well documented that Trinis bear the mundane nuances of daily life by releasing during the Carnival season... So if the current economic and social climate is any indication, then bredda, we have a lot to release! This Carnival our belts may be tighter than ever and this recession has affected both men and women of all shapes, sizes, ethnicities & weave lengths. But as members of the Soca Kingdom, we absolutely cannot deny our innate desire to wine and fling it up in the Savannah.

We have spent ten years perfecting the pump and it's only right that for our 50th Issue, we bring to you the SCORCH Guide to Carnival. Who knows the ins and outs of Carnival better than the ultimate pumpers?!

We also would like to thank all of our sponsors, advertisers, contributors, fans, haters, well wishers, and you for sticking with us on this roller coaster journey that got us here. So in memory of our good friend Devon Matthews, we say "Even though the road is long no matter what come I know we go make it"

# DRESSING FOR FETE 101

From the time you stopped getting toys for Christmas, clothes became their replacement. And with Carnival conveniently right after the yuletide season, that crop top from your Aunty, romper from your bestie or fresh kicks you bought for

yourself, quickly come in handy. But for many the problem isn't having the right clothes, but knowing the right time and place to wear them. For those who are a bit green to the fete scene, let the **SCORCH Fashion Police** help you out.

## WET FETE

You can't play mas if you "fraid powder - or water! As the name implies, this is a water party, so don't be surprised or angry when that hose bade dong yuh ass without a warning. You're best off wearing something light and tight for this occasion, lest you leave the fete in heavy, soaking clothes looking like a pile of wet drapes.

1

## PAINT PARTY

The wet fete's older, ugly half-brother, the paint party is NOT the place for anything remotely fancy. We know you wanna look good for those pre-party IG selfies, but remember paint doh dry out like water, so whatever you wear should be dapper but disposable.

2

YOU DONT WANNA BE THIS GUY

# ROAD PARTY

Thanks to the likes of 1st Jam and Bachannal Road, one no longer has to wait until Carnival Monday and Tuesday to see hordes of bare skin. Fellas, any type of vest and shorts combo will suffice here, and ladies, feel free to be a bit daring and rock last year's Monday wear or a bikini and shorts. However, if you do decide to wear that high-cut whole piece, just remember, if you split in the middle, you risk exposing that slit in the middle too!

3

## COOLER FETE

Cooler fetes are your chance to keep it simple but sexy. Fellas, toting a cooler is the perfect excuse to flex your triceps, and ladies, you should have been in that squat rack since November, so now is your chance to throw on those high-waisted shorts and show yuh dutty, stinking ex who horn yuh last year what he missing out on now. #manisdog #newyearnewme

4

5

## BOAT CRUISE

It's Carnival Wednesday and you're looking to pump SCORCH DDI with the crew. By now those Savannah laps and Chancellor sprints should have paid off, so flaunt that ish! Swimsuits and wraps for the ladies, tanks or plunging v-necks for the men, and shades for both.

# ALL INCLUSIVE

6

While they sometimes get a bad rep for being too stush, what all-inclusives lack in fun, they definitely make up for in flam. Ladies, this is the fete you wear that outfit to. What outfit you ask? The one you bought 3 years ago, and paid way too much money for, but you

HAD to have it and have been saving it and patiently waiting for the perfect occasion to wear it. Yes, that outfit. And guys, y'all need to look the part too. Women love a foreigner since "all Trini man is dog" and you won't stand a chance next to that Tyson Beckford lookalike from Brooklyn if you wearing the same ole jeans and wash out polo everybody tired see you in.

# COSTUME DO'S & DONT

## DON'T DO THIS!

**✗ Don't** make amateur alterations to your costume. Put down Granny old sewing machine and go find yourself a proper tailor. You never even learn to hem a pants but yuh trying to adjust a whole bottom piece with a needle, stapler and some crazy glue.

**✗ Don't** wear the whole thing on Monday. Yes we know Carnival does bring out the never-see-come- see in everyone but as mentioned, things fall apart. If you wear it all on Monday, you're risking your Carnival Tuesday. Ladies, invest in some Monday wear and fellas, pick up a nice board shorts for yourself.

**✗ Don't** complain about the size/colour/design if you got one free. Costumes prices have literally tripled in less than 10 years, so be happy that you didn't pay for yours. Don't be that ungrateful asshole in the mas camp saying "green doesn't really go well with my complexion but I guess I'll take it anyway" 'cause come next year you won't be so lucky.

**✗ Don't** sacrifice safety and comfort for the sake of fashion. Ladies, heeled boots look great, but you know what doesn't? You hopping and dropping like David Rudder after half an hour when your feet start to kill you. Guys, same goes for you. Don't forego your glasses if you don't wear contacts, just so you could rock a fresh pair of Raybans. No sense in trying so hard to look cool, but not being able to look where you going drunk and tired Monday night, but starting off Carnival Tuesday with your crotch smelling like a wet dog is no way to hit the road.

Warning: These are not costume adjustment tools.

## DO THIS!

DEFINITELY DO SCORCH ALANTICA IN TRIBE THIS CARNIVAL

**Do** collect your costume early and on time. Don't be that fool skating in the mas camp or distribution centre 2 minutes before they close on Carnival Friday, and then vex that youciah get the size 34" pants switch to a 36" cause you didn't lose them extra five pounds you thought you would (and never do).

**Do** choose an appropriate size for your body. Ladies, take a C cup or larger if you know youwent through at least three guava seasons, and forego the thong if you only squat on the toilet. Fellas, similarly, don't try to squeeze that big belly into a pants that is the same size as yuh jockey shorts.

**Do** wash anything you wear on Monday that you intend to re-wear on Tuesday. While the ladies have Monday wear, guys have less options for both days on the road. If you're gonna wear the same pants twice though, at least give it a wash in between. We know the last thing you studying is to fight up with soap powder when you come home drunk and tired Monday night, but starting off Carnival Tuesday with your crotch smelling like a wet dog is no way to hit the road.

**Do** expect your costume to fall apart at some point. Again, we know you paid a fortune for it, ladies especially, and while the majority of it should stand up, a little wear and tear is to be expected. Don't start bitching because a feather fell out your head-piece at 5pm on Carnival Tuesday. It was made in China, not by God.

# PORT-A POTTY 101

101

Even the strongest of bladders eventually succumb to alcohol's diuretic effects, so despite your best efforts to hold it in, after all that rum and the shot of Henny, yuh looking to break the seal. But navigating a public restroom is by no means an easy feat, and comes with a unique set of challenges for both sexes.

## ♂ MASTERING THE AIM GAME

It's amazing how Steph Curry could score double-digit 3s in a single game, but after four drinks the average man cyah manage to keep a line of fluid in a 12 inch bowl. We recommend you aim straight and up to avoid any splashes around the bottom of the rim which could leave yuh jeans in ah scenes.

## ♂ URINAL USAGE

While whipping out yuh loio a mere foot away from a complete stranger is objectively a bit awkward, we still recommend using urinals versus a toilet, where available. Reason being the actual distance to bowl is shorter, so despite you having the accuracy of a giddy Stevie Wonder, you're more likely to sprinkle on the toilet seat.

## ♀ THE CURSE OF THE PURSE

Chances are you aren't heading to that bathroom without your 'essentials' - i.e. wet wipes, lipstick and some make-up - so you're already one free hand short but need both to effect the aforementioned hover. Your best bet? Bring a partner. Be it your girlfriend or yuh man, drag one ah dem along to be on clutch watch while you bend yuh knee and pee.

## ♀ MASTERING THE HOVER

The amount of bacteria present on a porter potty seat sits at number 2 on the all-time germs list (just behind the drain water from Charlotte Street) so there's no way you resting your clean cocoa butter bottom on DAT! Enter the hover. Firstly, start by making sure the floor is dry, so yuh doh slip and de whole of you end up in the potty". Secondly, give the seat a wipe anyway,

just in case yuh legs wobble 'cause yuh still sore from spin class yesterday and yuh bamsee touch it by accident. Thirdly, pop a squat and hold it, bracing against the walls of the porter potty with your hands for extra stability. **Note: If this does happen, your life is over. Consider emigrating to Singapore or at the very least, not leaving our house for 37 years, after which the public shaming should have subsided.**

*Remember when ...*

# BIT COIN

**101** Bitcoin is a digital currency which aims to do away with all the problems we have paying for anything.

Think of the current situation: You're online and want to purchase a pair of sneakers. This transaction requires you to provide private identity details and the banks still charge you a transaction fee to spend yuh

own money. After a while those transactions add up, and you may just have to hide the credit card statement from your wife because of your monthly subscription to Pornhub.com.

In 2008, a programmer named Satoshi Nakamoto Nakamoto said he had enough and Bitcoin was born.

Here's the rundown.

## ANONYMITY

One of the differences between using bitcoin and using regular money online is that bitcoin can be used without having to link any sort of real-world identity to it. Bitcoin does not keep track of users; it keeps track of addresses where the money is.

This is done with a branch of mathematics known as public key cryptography.

## PUBLIC KEY (USER CODE)

A public key is what determines the ownership of bitcoins, and is very similar to an ID number.

If someone wanted to send you bitcoins, all you would need to do is supply them your bitcoin address

For example, if Bob has 1 bitcoin at the bitcoin address "ABC123," and Alice has no bitcoins at the bitcoin address "DEF456," Bob can send 0.5 bitcoins to "DEF456." As soon as the transaction is processed, Alice and Bob both have 0.5 bitcoins. Anyone using the system can see how much money "ABC123" has and how much money "DEF456" has, but they cannot tell anything about who owns the address.

## PRIVATE KEY (PASSWORD)

In the example above, "ABC123" and "DEF456" are the bitcoin addresses of Bob and Alice. But Bob and Alice each have a second key which only they individually know. This is the private key, and it is the "other half" of a Bitcoin address. The private key is never shared, and allows the owner of the bitcoins to control them.

However, if the private key is not kept secret, then anyone who sees it can also control and take the bitcoins there.

## THE BLOCKCHAIN (THE DATABASE)

Sites or users using the Bitcoin system are required to use a global database called the blockchain. The blockchain is a record of all transactions that have taken place in the Bitcoin network. It also keeps track of new bitcoins as they are generated. With these two facts, the blockchain is able to keep track of who has how much money at all times.

## MINING (THE MINT)

To generate a bitcoin, computers run specialised software. Because of how complicated the math needed to generate a bitcoin is, they must be calculated with very powerful processors.

The process of generating the bitcoins is called mining. People who use their computers to mine Bitcoin, are paid with a small percentage of the bitcoins they generate

## WALLETS

Wallets provide a handy way to keep track of all of a user's public and private addresses. Because addresses are pseudo-anonymous, anyone can have as many addresses as they want. This is useful for dealing with multiple people, but it can get complicated to manage multiple accounts. A wallet holds all of this information in a convenient place, just like a real wallet would.

# 5 WAYS

## TO GET IN THE FETE

boy...hyba tell me to just come down, is me and these two birds...

### 1 PAY YUH WAY

No link? No problem! Jump out the cash and get a ticket in hand early. You could always sell it if you find a way to get in free after. #bettersafethansorry

### 2 PERFORM & STORM

Every soca artiste worth their weight in chili bibi these days has back-up dancers, a hype man, a bodyguard, a driver, a social media manager, or some kinda auxiliary staff. Pose as any of the above and come through backstage with his/her entourage. #clique

### 3 PROVIDE & SLIP IN

The average patron may not know this, but every fete has anywhere between 13 - 47 service providers, and after a while security loses track of who is who and there for what. Sling a camera around your neck or throw a loop of electrical cord over your shoulder and head for the service entrance with a serious face. #confidenceiseverything

### 4 NO COMP...NO PUMP

You're on the committee or know someone who is, and you've been blessed with a precious complimentary ticket. Swagger your way into that party like you own it, knowing you didn't pay a cent to come and drink out the people bar. #noshameinyuhgame

### 5 PLUS ONE & DONE

You weren't lucky enough to get a free pass directly, but yuh friend have a Visa face so you roll with him/her so they could get you in with them. Note, this works best if you're a good-looking female, so be honest with yuhself before yuh reach the door only to get brace and get leave outside de dance. #sorrynotsorry

(INSERT FACE HERE)

### TIP FROM A PROFESSIONAL PUMPER

Get down to the venue early to help set up, then lime under a tent (preferably the bar tent) until the party starts. Played right, yuh backstage and all. NB: walk with a change of clothes

# WHATSAPP ETIQUETTE

*Etiquette* (noun)  
the customary code of polite behaviour in society or among members of a particular profession or group.

DO'S  
AND  
DONT'S

<p><b>1</b> <b>NEVER</b> ask the random girl in the gym line for her number. Unless you pulled up in a Ferrari, no girl is THAT desperate for small talk or friends-far less a man.</p>	<p><b>2</b> <b>DONT</b> be giving out people number like is collection money in church. Some folks actually use what's app as a very personal form of communication.</p>	<p><b>3</b> Changing your display pic to random quotes, words, sayings and song lyrics makes it harder for people to figure out who they're speaking to. Leh we see yuh face huh! Geez!</p>
<p><b>4</b> Just because someone has your number, doesn't mean they actually want to converse with you on what's app. Are you Facebook friends? Do you even know their government name?</p>	<p><b>5</b> Your every waking thought <b>DOES NOT</b> need to be broadcasted. We've got Twitter for that! Quite frankly, since nobody wanna tell yuh and Scorch loves you, we will: <b>NOBODY CARES!</b></p>	<p><b>6</b> Don't send a rude joke and then 15 minutes later, send this "Prayer message" to us that will ensure our eternal damnation if not forwarded to 10 friends. Since when you turn Pastor Cuffie?!</p>

## RULE 4

Do we even NEED to explain this one? *Sidenote*\* Rookie move to have automatic media download in a group chat.

## RULE 3

When in doubt, don't forward. Verify things before passing them on. We begging yuh! Modern day chain mail isn't cool.

## RULE 5

## ALL INCLUSIVE FETE

**PRICE** – Between gas and grocery prices, people money tight. And jumping out close to a grand so early in the year when you just made a resolution to save more might not be a smart move.

**ATTIRE** – Yes you want to look nice but, no good 6:30 wine ever came from a gyal in a bespoke fitted dress. All those fancy clothes can be both a hassle and financial headache, and the more people dress up is the less they wine down.

**SERVICE TIME** – After finally catching a good head, yuh turn back sober cause you've been waiting by the bar behind a fella who order was 2 scotch and coconut, a vodka and sodawith a lime wedge, a Carib in a napkin and 5 Punchy Punch shots "but only if they have thefruit punch flavour okay?" "Insert impatient roll eye here"

## COOLER FETE

**PRICE** – At an average price of \$350, yuh doh hadda buss yuh pocket to go out and buss ah wine. Plus, yuh must have some left over liquor from Christmas to take with you.

**VIBES** – With a relaxed dress code and drinks at your fingertips, it doh take long for the party to build up and tings to get sweaty. No stush vibes here!

**AVAILABILITY OF DRINKS** – No disappointing excuses by the bar like "sorry, the Hennessy finish" to sour yuh vibes. You know what you have and how much, and is easy access too.

## COOLER FETE

**COOLER CHALLENGES** – If you're a guy moving with a group of women, it's understood that you have to carry the cooler and not ONE of dem blasted bitches gonna help yuh. If you're a woman, you have to worry about tripping over coolers while navigating the party in wedges 'cause you was tryna look cute, but nearly fall and cyat-spraddle at least three times already.

**LIMITED DRINKS** – Is only so much a cooler could hold, and by the time that one friend (youknow, the one who doh contribute but does drink the most) refill his cup 2-3 times, the bottle done reach half already.

**NO FOOD** – Is after midnight and drinks flowing but you aint eat ah meal since 7 cause you was busy getting 2 extra tickets at 8, passing in the grocery for ice and chaser at 9, to reach back home and start getting ready at 10 so you could pick up yuh gyal and her friends by 11. Now yuh belly in yuh hand and all yuh could think about is that box ah dead on the wayhome after. #threepiece-withextrafries

Yes, her name is actually Epiphany. We were surprised as well. This Jamaican/Trini is brand new to social media so don't have moment of sudden great revelation when you see her around.

03 @chloejoseph17

She is patois perfection. This French-Trinidadian human has us speaking in tongues. You can't miss her when she walks into a room.

02 @naiomimaharaj

You rarely see her at events so when you do, it's almost like a unicorn sighting. When you do, however, you're not likely to forget. If you ever see her in public, take a pic because we won't believe you.

@siennathornhill

This singer/dancer/actor has us secretly enamoured with her sultry voice and her even sultrier looks. This smoking hot songstress keeps our eyes and ears yearning for more.
